Amphenol

Heavy Duty Connectors

Aquacon Connectors

Designed to provide maximum service in oceanic or fluid immersion applications. A specially designed aluminum bronze coupling nut and type 316 stainless steel shells resist corrosion and provide a pressure withstanding connector. Positive threaded coupling. “O” rings, and a color band visual indicator assures sealing and proper mating. A rear accessory thread provides for the use of EMI hardware.

Dualok High-Vibration

Dualok is an enhanced anti-decoupling mechanism designed to perform under severe vibration environments. The Dualok system is proven to mitigate the negative effects of high vibration operation by eliminating connector back-off and reducing conditions that can cause fretting corrosion. Dualok is compatible with D38999 Series III receptacles and is qualified to Boeing BACC63EK.

Heavy Duty Shielded Connectors

Amphenol LTW’s Heavy Duty Shielded is designed by following IEC standards and offers rugged & reliable solutions in specific markets and applications with signal transmission up to 5A / 250V and power up to 10A/20A & 250V/300V.
